
INSTALLATION INSTRUCTIONS FOR BERETTA PISTOL ADAPTER

Intended for use only with Beretta 92/96 models with serial numbers **HIGHER** than BER194468.

WARNING

Be sure the weapon is CLEAR and SAFE before proceeding.

1. Remove the Spring Clip from the Pistol Adapter by loosening the Set Screw with the provided Hexkey.
2. Continue backing out the Set Screw so that it will not prevent the Pistol Adapter from fitting tightly against the trigger guard of the weapon.
3. Push the Pistol Adapter onto the weapon frame. Ensure it is tight against the frame and trigger guard.
4. Insert the Spring Clip (with Locking Tabs up) in the channel formed between the Pistol Adapter and the inside of the trigger guard. Use thumb to slide up and into place as shown below.
5. Tighten the Set Screw with the Hexkey to firmly secure the Pistol Adapter to the weapon.
